As we are winding down the school year all parents need to know:

2. All classes will have a special end of the year fun day or show. Info to follow.
3. For family's returning to Lilliput in the Fall you need to update all you child's paperwork and add a 2017 signature. Your child's teacher will try to catch you on the class fun day/show to do this.
4. For students not returning to Lilliput in the Fall parents need to sign a record release form.
5. Parents of children who have medication at school need to pick up their child's medication on their child's last day of school.

**With spring comes wonderful mud so please remember to send your child to school with boots to wear on the playground every day in Spring.**

**APRIL is AUTISM AWARENESS MONTH!**

Since 2000, Lilliput School has had over 95 children go through who tested out in the Autistic spectrum.

For more information about Autism visit the link below & please share with friends & family.

[autismspeaks.org](http://autismspeaks.org)

"Today the Centers for Disease Control and Prevention (CDC) updated its estimate of Autism Spectrum Disorder (ASD) prevalence in the United States to **1 in 68 children**. (Lilliput has over 200 children enrolled today so statistics say it is likely we have we have 3 children in our school this year with an ASD. This is one of the many reasons we do diagnostic screenings so we can catch/identify the children who need early intervention and further evaluations. We contact parents with academic and developmental concerns and then it is up to the parent(s) to take the next steps which we are happy to support them in.) *ASD is reported to occur in all racial, ethnic, and socioeconomic groups. The new numbers - based on a recent snapshot of 14 monitoring sites - represent a 78 percent increase in autism over the previous five years. They represent a ten-fold (1,000 percent) increase in reported prevalence over the last four decades.*"

"Research shows that early intervention treatment services can greatly improve a child's development. Early intervention services help children tremendously with ASD and other learning delays. Services include therapy to help the child talk, walk, and interact with others. Therefore, it is important to talk to your child's doctor as soon as possible if you think your child has an ASD or other developmental concern. Even if your child has not been diagnosed with an ASD, he or she may be eligible for early intervention treatment services. The Individuals with Disabilities Education Act (IDEA) says that children under the age of 3 years (36 months) who are at risk of having developmental delays may be eligible for services. These services are provided through an early intervention system in your state. Through this system, you can ask for an evaluation. For support in finding services for your child contact the Lilliput Directors and your child's Pediatrician.

The registration fee you paid reserves a spot for your child in the 2017-2018 school year program until the first tuition payment that is due June 1st or May 1st for those paying quarterly or in full. If we do not receive your first tuition payment on time, we give that spot to the next family on the waiting list.

**PUBLIC KINDERGARTEN SCREENING**

All children whether they are attending Lilliput, another private school or public should do the public schools Kindergarten screening! It is valuable for every child.

**FYI:** Parents must register their children for public Kindergarten at their school department. Bring your child's birth certificate and proof of residency (an electric bill will do). You will then be sent a packet with screening information.

**SCHOOL DONATIONS**

We are looking for boots to add to our spare clothes collection for students to use when they forget their boots at home.

**HEALTH CHANGES IN YOUR CHILD**

Changes may occur in your child's health and they may need medication when they are at school. Lilliput cannot administer any medication, even over the counter medication similar to Tylenol without a "Permission to Administer Medication" form completed by your child's doctor and signed by you the parent. That form is available in the office, and on line at [www.Lilliputschool.com](http://www.Lilliputschool.com), or your Doctor should have one when he gives you the medicine.
